ABOUT ME

Computer Science student at JECRC University, graduating in 2026, with a strong creative mindset and passion for digital design and content creation. Skilled in Canva and UI/UX design, with hands-on experience managing brand presence across social platforms. I enjoy crafting visually compelling, audience-focused content that drives engagement.

EDUCATION

B.Tech in Computer Science Engineering JECRC University, Jaipur 8.5 CGPA	2022 – 2026
Senior Secondary Education Gyanodaya Public School, Dadiya (Raj) 73%	2022
Secondary Education LPS Vidyawadi, Rani (Raj) 92%	2020

WORK EXPERIENCE

Social Media Manager Intern

3D Printing-Focused Company

- Managed brand presence across LinkedIn, Instagram, and Facebook, growing audience engagement through consistent, on-brand content.
- Planned, designed, and published content tailored to each platform's audience, maintaining a cohesive brand identity.
- Created visuals and copy using Canva; monitored post performance to iterate and improve content strategy.

Website Development Intern

- Built responsive, user-friendly interfaces and collaborated with cross-functional teams to improve UI design.
- Applied design principles and prototyping techniques to deliver improved user experiences.

SKILLS

UI/UX Tools: Figma, Canva

Technical: Python, C++, HTML, CSS

Design: Wireframing, Prototyping, User Research, Design Thinking, Visual Design

Social Media: Content Strategy, Campaign Planning, Community Management, Platform Analytics

Soft Skills: Creativity, Storytelling, Teamwork, Communication, Quick Learner, Consistency

PROJECTS

Shrim Swad Shaandar – Brand & Visual Design

- Designed complete visual brand collateral for a cloud kitchen: menu card, tiffin service card, and achar menu card using Canva.
- Focused on layout, typography, and colour balance to create clean, print-ready designs reflecting the brand identity.

Donut Animation – UI/UX Design Project (Figma)

- Created animated UI using Smart Animate & prototyping; designed high-fidelity screens with focus on UX motion design and user interaction flow.

Amazon Clone – Responsive Web Design

- Developed a fully responsive Amazon homepage clone using HTML5 and CSS3 (Flexbox, Grid), replicating key UI sections with consistent design.

ACHIEVEMENTS

- Smart India Hackathon (SIH) Finalist** – Achieved a top 50 rank out of 200+ competing teams.
- Dev-Crest Coding Community – Chapter Lead** – Led the coding community chapter at JECRC University.
